To Brethren of Lincolnshire

Re: Provincial Grand Master

Dear Sir and Brother,

I am pleased to be able to inform you that Right Worshipful Brother David Malcolm Wheeler is at home and making a good but slow recovery from his illness. He remains under house arrest in the custody of Mrs Wheeler, he is still feeling tired and a little jaded but remains in good spirits and is receiving support from his close family who are ensuring he takes things easy. Treatment is continuing via the Outpatients Department at Lincoln Hospital. He was a little breathless last evening but began breathing normally again after the final whistle, I will check on his condition again after the final whistle on Sunday.

All your good wishes and get-well cards are much appreciated, I remain in regular contact with him and will continue to pass on any correspondence.

I am instructed that all of the Provincial Team Visits will proceed as planned with one of the Provincial Team attending as his personal representative.

I will, as I receive updates on his treatment and recovery, continue to keep the province informed via Lodge Secretaries and the Provincial Website.

Yours Sincerely and Fraternally

Provincial Grand Secretary
